

Qualification Specification

STA Level 2 Award in Basic Life Support and Management of Anaphylaxis

This qualification is regulated by Ofqual (England) and by Qualification Wales (Wales)

STA Level 2 Award in Basic Life Support and Management of Anaphylaxis

Qualification Number: 601/5459/7

QW Number: C00/3385/0

Unit Structure

This qualification consists of 1 mandatory unit

Unit Title	Code	Unit Level	GLH
Basic Life Support and Management of Anaphylaxis	F/506/8530	2	4

GLH=guided learning hours

Total Qualification Time 4 hours

Qualification Delivery

The recommended contact hours for this qualification are 4 hours, which includes direct teaching and assessing but excludes breaks.

The course may be delivered over 1 day, but can also be delivered over a period of 2 weeks, with the minimum of each training session being 2 hours.

The ratio for this qualification is a maximum of 12 learners to 1 tutor.

Introduction

Anaphylactic shock occurs following a major allergic reaction causing life threatening airway, breathing and circulation problems. STA Award in Basic Life Support and Management of Anaphylaxis qualification will enable learners to deliver emergency basic life support, CPR and first aid to casualties suffering from anaphylactic shock.

Qualification Objective

The STA Level 2 Award in Basic Life Support and Management of Anaphylaxis qualification prepares learners to hold the knowledge, understanding and skills to safely administer an adrenaline auto-injector unit in the workplace, at home or in a voluntary setting.

Target Learners

The qualification is designed for learners within the workplace, at home or in a voluntary setting who may come into contact with someone suffering from anaphylactic shock. The basic life support elements of the qualification enables learners to deliver CPR to casualties in an emergency situation.

Progression

The STA Award in Basic Life Support and Management of Anaphylaxis enables learners to progress onto qualifications at the same level or above, plus aid the career development of industry professionals.

Learners wishing to develop their knowledge and skills further could attend an Emergency First Aid at Work, or First Aid at Work course.

Industry Standards

- Health and Safety (first aid) Regulations 1981 and Health and Safety (First Aid) Regulations (Northern Ireland) 1982
 - First Aid Awarding Organisation Forum Terms of Reference and Assessment Principles
 - Skills for Health and First Aid Awarding Organisation Forum Standards
 - Resuscitation Council UK Guidelines
-

Entry Requirements

Learners must be 16 years of age or above on the first day of the course. It is advisable that learners have a minimum of level 1 in literacy or numeracy or equivalent.

Learners must be able to kneel on the floor to demonstrate CPR.

Special Considerations and Reasonable Adjustments

For further information on these, please refer to the policies section on the Safety Training Awards website:

<https://www.safetytrainingawards.co.uk/policies/>

Awarding Organisation Policies

A full list of awarding organisation policies are available on the website:

<https://www.safetytrainingawards.co.uk/policies/>

Any Other Requirements / Revalidation Requirements

This qualification is valid for a period of 2 years. The learner needs to retake the qualification before the certificate expiry date to remain qualified.

Assessment Format

Pass / Fail

Assessment Methods

This qualification is tutor assessed through practical demonstrations.

Assessors will assess no more than 4 learners at any one time when performing practical demonstrations.

Please refer to the STA Basic Life Support and Management of Anaphylaxis assessment strategy document for the detailed assessment process.

Tutor / Assessor Requirements

All Tutors must have the skills, knowledge and experience to be able to teach and demonstrate the subject.

Each Tutor must be approved by Safety Training Awards and provide evidence of:

1. A relevant vocational first aid qualification and / or experience as shown in Appendix 1
 2. A formal tutoring and assessing qualification as shown in Appendix 2. Tutors must maintain their technical competence within the subject area and provide evidence of continuing professional development (CPD).
-

IQA Requirements

Internal Quality Assurers of this qualification must have knowledge and competency in first aid as well as knowledge and competency in internal quality assurance.

An IQA must hold:

1. A relevant vocational first aid qualification and / or experience as shown in Appendix 1
2. Attend a STA / IQA training day or hold a recognised internal quality assurance qualification.

Note: Internal Quality Assurers cannot quality assure a course for which they were a learner, the tutor and / or assessor.

Resource Requirements

Course resources:

- STA Award in Basic Life Support and Management of Anaphylaxis resource manual - Each learner is required to have their own copy of the resource manual to keep during and after the course, in order to have access to the theoretical knowledge of the qualification.

Venue:

- Room size: Adequate space for all learners on the course to undertake theory and practical work
- Seats: One per learner
- Writing surfaces: Adequate for each learner to take notes
- Toilets: Separate facilities for male and female learners
- Ventilation: Should be adequate
- Lighting: Should be suitable for reading, combining a mixture of natural and artificial light
- Heating: Should maintain a 'short sleeve' environment, minimum temperature 16°C
- Entrances / Exits: Should be safe, well lit and DDA compliant
- Floor coverings: Should be carpeted or mats / blankets provided for use during practical sessions
- Cleanliness: Maintain a clean, tidy and hygienic environment
- Noise: Consider whether there is noise that may distract candidates from training.

Minimum requirements:

- Laptop
- PowerPoint presentation
- TV or other display method
- Adult basic life support manikins - ratio 1:4
- Resuscitation face shield or pocket mask
- AED Trainer
- Emerade training unit - ratio 1:4
- Epi-Pen training unit - ratio 1:4
- Jext training unit - ratio 1:4
- First Aid Kit.

Recommended:

- Dry wipe board
- Flipchart
- Blankets.

Equipment and Service and Maintenance

Ensure all electrical equipment is in safe working order, serviced and maintained in line with statutory requirements, such as Portable Appliance Testing (PAT), Provision and Use of Work Equipment Regulation (PUWER).

Follow manufacturers guidance on regular cleaning, service and ongoing maintenance requirements for all course equipment.

It is important to be aware of the trip hazards associated with electric cables and reduce such risks.

Sufficient procedures must be in place to ensure hygiene during the use of resuscitation manikins and other training equipment.

Appendix 1

Technical competence in first aid

All tutors, assessors and internal quality assurers must have occupational knowledge and competence in first aid.

Acceptable evidence includes:

- Holding a current First Aid at Work Certificate (issued by an Ofqual / SQA / Qualifications Wales recognised Awarding Organisation or equivalent)
- Current registration as a Doctor with the General Medical Council (GMC)
- Current registration as a Nurse with the Nursing and Midwifery Council (NMC)
- Current registration as a Paramedic with the Health and Care Professions Council (HCPC).

V1 or D34
SQA Internally Verify the Assessment Process

Unit Specification

Unit Title	Basic Life Support and Management of Anaphylaxis	
Learning Outcomes	Assessment Criteria	
1. Be able to manage an unresponsive casualty who is breathing normally	1.1 1.2 1.3	Conduct a scene survey Conduct a primary survey of a casualty, summoning appropriate assistance when necessary Demonstrate how to place a casualty into the recovery position with continual monitoring
2. Be able to manage an unresponsive casualty who is not breathing normally	2.1 2.2	Identify when to administer Cardio Pulmonary Resuscitation (CPR) Demonstrate CPR using a manikin
3. Know how to recognise a casualty with anaphylaxis	3.1 3.2 3.3	Identify the common triggers for anaphylaxis Recognise signs and symptoms of anaphylaxis Identify the possible life-threatening features of an anaphylactic reaction
4. Be able to manage a casualty with anaphylaxis	4.1 4.2 4.3 4.4 4.5	Administer first aid for a casualty suffering from anaphylaxis Prepare appropriate medication for administration during anaphylaxis treatment Identify key features of various adrenaline auto-injectors Demonstrate the use of a 'training device' adrenaline auto-injector State how to safely dispose of sharps
