Centre Policies and Requirements

The following documents must be provided to support the ATC application:

- Equality and Diversity Policy
- Complaints Policy
- Appeals Policy
- Malpractice and Maladministration Policy
- Safeguarding Policy (where applicable)
- Health and Safety Policy
- Internal Quality Assurance (IQA) Policy
- IQA Strategy and IQA Sampling Plan.

Safety Training Awards have sample policies available upon request.

Please note: Approved Training Centres (ATC) will need to produce their own policies to ensure the procedures apply to the ATCs operations and are adhered to by the centre staff.

As a best practice recommendation, we would encourage ATCs to include version control or add an annual review date to the required policies and procedures. More information can be found in the Approved Training Centre (ATC) Manual, Version labelling and control procedures section.

ATCs based in Scotland: in order to meet regulatory requirements, it is a mandatory requirement for all ATCs to introduce a 'Version Control Procedure' to all ATC policies, procedures and documentation that relates to Safety Training Awards:

- What is version labelling and control?

Version labelling and control is the process by which different drafts and versions of a document are managed. It involves the naming and distinguishing between a series of draft documents which lead to a final version. Please refer to the supporting guidance within the Approved Training Centre (ATC) Manual- pg12 for more information.

Qualifications

Please state below which qualifications you are seeking approval for, and the centre staff allocated to fulfil the mandatory roles for the chosen qualifications. At this stage centres are required to select a minimum of one qualification they wish to offer, additional qualifications can be added to the centre approval at any time. It is a recommendation that if you are requesting approval for aquatic qualifications you may need to apply for more than one, this is due to a pre-requisite requirement for specific qualifications. Please refer to the qualification specifications on the Safety Training Awards website for more information.

Please include your estimated learner or course registration numbers for the first 2 years of approval.

Qualification Title	Proposed Tutor	Proposed Assessor	Proposed IQA	Registrations Year 1	Registrations Year 2

Please provide any supporting information for the qualifications you are seeking approval for i.e. a description of your centre activities, achievements, resources, facilities, and any other information you think may be useful to your application.

Final Declaration

<p>I can confirm that the named ATC Centre Co-ordinator has appointed the appropriate workforce to deliver, assess, and quality assure Safety Training Awards qualifications.</p> <p>I can also confirm that the appropriate agreements are in place with the named centre staff included in this form.</p>

ATC Centre Co-ordinator Name	

By signing this application form, I confirm to the best of my knowledge that at the date of submission all information provided is true and accurate.

ATC Centre Co-ordinator Signature	
Date of Submission	
<p>I can confirm that I understand centre approval will not be granted until the appropriate evidence has been submitted to support the application and a pre-approval visit has been completed by Safety Training Awards. I am fully aware that this may take up to a maximum of 12 weeks.</p>	

Safety Training Awards will carefully consider all of the information and evidence provided by the ATC Centre Co-ordinator. If Safety Training Awards are satisfied that the centre has achieved the approval criteria, we may grant centre approval for a three-year period.

After the three-year period ends, we will carry out a full review of the ATCs performance and compliance towards the requirements set out by Safety Training Awards and decide if centre approval may be granted for an additional three years.

During the three-year approval period if evidence suggests there is or has been a case of non-compliance of any Safety Training Awards (STA) requirements we may withdraw approval status at any point. If this is the case, if this is the case we will provide the ATC Centre Co-ordinator with a suitable notice period. This will allow the ATC Co-ordinator to complete any outstanding courses where learners are registered against or in the process of completing their chosen qualification. The notice period given by Safety Training Awards will take all of this into account, providing the ATC Co-ordinator with sufficient time to certificate any outstanding learners. Alternatively if the evidence suggests there are significant risks to the outstanding learners, Safety Training Awards may choose to arrange for the learners to complete their chosen qualification with another ATC and the ATC under investigation is liable for the additional costs incurred. For any additional information please refer to the Safety Training Awards Sanctions Policy.

Safety Training Awards will work with the ATC to ensure the interests of the learners are protected at all times. Please refer to the Approved Training Centre (ATC) Manual for further information in relation to the withdrawal process.
